

The federal government funds a large share of essential health and social services for families and residents in California. Yet, a 2025 tax and budget law entitled **H.R. 1** (also known as the “One Big Beautiful Bill Act”) makes harmful cuts to health and nutrition assistance programs, along with burdensome work requirements and increased administrative costs to the state and localities. This data sheet provides a profile of the Orange County residents that will be impacted by some of these cuts. The charts below show how many residents in the district are at risk of losing these vital services.

There are **495,360 Orange County residents in California Assembly District 72 (AD-72)**. This district includes the following Orange County cities: **Aliso Viejo, Huntington Beach, Laguna Beach, Laguna Hills, Laguna Woods, Lake Forest, Newport Beach, and Seal Beach.**

“Medi-Cal” is California’s Medicaid program. It is a public health insurance program that provides no-cost or low-cost health coverage for people with low-incomes or limited resources.

~1 Million
OC residents are enrolled in Medi-Cal through CalOptima Health or Kaiser Permanente

In AD-72, **60.57% of adult Medi-Cal enrollees are at risk of losing their health coverage.** That’s because H.R. 1 imposes new work requirements on adults ages 19-64 applying for or enrolled in Medi-Cal (with some exemptions). All states including California will have to verify twice a year that adult Medi-Cal enrollees work or participate in “qualifying activities” for at least 80 hours per month to maintain coverage. Adults who do not meet this requirement will be **denied** or **disenrolled from Medi-Cal** coverage and become **uninsured**.

WHO ARE WE? OC API TASKFORCE

The **Orange County Asian and Pacific Islander Task Force** (<https://www.ocapitaskforce.org/>) is a network of Asian American, Native Hawaiian and Pacific Islander nonprofit organizations and community members. We aim to elevate community voices, engage multi-sector stakeholders, and create sustainable and transformational change in Orange County, California.

APITF thanks Daniel Ichinose at OC Action for conducting the data analysis, the Orange County Social Services Agency, Research Unit, for providing Medi-Cal and CalFresh enrollment data, and Sydney Pike at Pacific Islander Health Partnership for formatting and design.

CUTS TO CALFRESH

H.R. 1 cuts the amount of food benefits residents and families with low incomes will receive.

More CalFresh recipients will also have to meet the law's stricter work requirements. These changes put **parents, caregivers, older adults, veterans and other vulnerable individuals at high risk of losing their benefits** and will likely impact children living in CalFresh households who qualify for free or reduced cost school meals. The new law also shifts the financial burden of higher food benefits and administrative costs to states and local governments, taking away resources to prevent hunger in OC.

Methodology:

Orange County Medi-Cal and CalFresh enrollment as of March 2025 were provided by the Orange County Social Services Agency, Research Unit on May 30, 2025. These individual-level data were provided with racial, ethnic, and age identifiers, but redacted of all personally identifiable information. County-derived Medi-Cal data differ from state-derived data and exclude Qualified Medicare Beneficiary (QMB) members, SSI recipients, Presumptive Eligibility Medi-Cal members, and those participating in some specialized Medi-Cal programs. County-derived CalFresh data may differ from state-derived data based on export date and county use of application rather than processing dates.

Because individual-level Medi-Cal and CalFresh enrollee data were provided with census tract and Orange County Board of Supervisor district identifiers, but without a street address or other geographic identifiers, California State Assembly and California State Senate-level estimates were produced by aggregating individual data to the census tract-level, using 2020 Census P.L. 94-171 population data to allocate census tract-level data to census blocks, then aggregating the resulting census block data to the legislative district-level.
